

# LMC5 Lifter

## Technical Specs

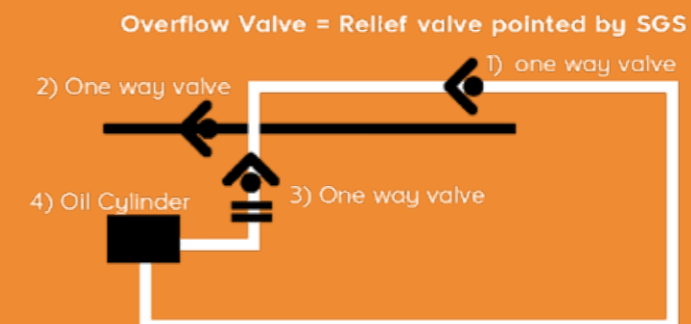

## Benefits and Features

- Rated to 2500kg
- Lifting capacity 800kg
- Ram overload protection, Oil Recirculating Valve
- Increased frame strength omitting frame flex
- Easy to maintain
- BT Openreach approved

The hydraulic unit features a valve that simply recirculates the oil when the max safe load has been reached preventing lifts of over 800kg

Additional shaft collar added to prevent wear
