

# Technical Specs

MOTOR	110V/240 (1.1kW) 4 Pole Motor
POWER OPTIONS	3 Pin UK Plug (Optional Power Bank)
AIR FLOW RATE	4 CFM (110ltr/min) Free Air
MAXIMUM PRESSURE	145 psi (10 Bar)
NOISE LEVEL	80 dB LpA / 94 dB LwA
WEIGHT	24.5 kg

# Benefits and Features

- V-Configuration oil-less compressor pump
- Oil free air productions
- Tankless design
- Cast aluminium construction
- Unique connecting rod system for perfect balance
- Heat-treated components for longer life
- Auto discharge idling valve
- Stainless steel valve
- Air cooling radiator with pressure stabilising valve
- Heavy duty flexible reinforced delivery pipe
- Full wrap around frame for protection and portability
- Supplied with “Instantair” coupler
- Condensate filter
